

We have several RV hook up areas. The cost is \$18.00 per day. Water tanks may be filled by hoses in several locations. Some RV sites are close to water and some will need to fill their tanks and then move into their spot.

You will have access to a black water dump on site. Please do not dump your grey water directly on the ground. Please use the dump area. There are several reasons; one being that it attracts wild animals. We do have coyotes in the area.

There is no dump fee; it will be free, unless you spill. The spillage fee is variable.

Because it is directly behind Jayne's house.

Driving directions to Dump site: If you have a small RV, you may use the back road through the woods. This is a fun adventure. You may ask how to locate this hidden back road. If you have a large RV, you may drive down the west side of the field, to the gas truck. Make a U turn around the gas truck and follow the gravel road or drive across the field.
